

Andrew A. Lover

Department of Biostatistics and Epidemiology
School of Public Health and Health Sciences • University of Massachusetts- Amherst
409 Arnold House • 715 North Pleasant Street • Amherst, MA 01003-9304
phone: 413-545-7426 • email: alover@umass.edu • lab website: loverlab.io

MAIN RESEARCH INTERESTS

Focus areas: Infectious disease epidemiology, disease surveillance, malariology, vector-borne disease.

Methodologies: Design, implementation and quantitative analyses of complex epidemiological field studies, including substantial analyses of cross-sectional, longitudinal, geospatial, complex survey sampling, and cohort (survival) datasets in studies related to malaria, dengue, Zika virus infection, HIV/TB, and nosocomial infections.

EDUCATION

2014 - 2018	University of California, San Francisco		Research fellow
2011 - 2015	National University of Singapore	PhD	Epidemiology
2009 - 2011	National University of Singapore	MPH	Global Health & Epidemiology
2001 - 2003	University of California, Santa Barbara	MS	Organic Chemistry
1993 - 1997	Earlham College	BA	Chemistry

PRINCIPAL POSITIONS HELD

2018 - current	University of Massachusetts, Amherst	Assistant Professor, Epidemiology	School of Public Health and Health Sciences
2014 - 2018	University of California, San Francisco	Research fellow; Epidemiology and Research Coordinator, SE Asia	Malaria Elimination Initiative, Global Health Group
2011 - 2014	National University of Singapore	Epidemiologist	School of Public Health
2011 - 2014 (concurrent)	Regional Epidemic and Disease Intervention (REDI) Centre, Singapore	Field Epidemiology/ Training Coordinator	Epidemiology section
2007 - 2009	Gilead Sciences, Seattle, WA	Associate Scientist	Medicinal Chemistry
2004 - 2007	ICOS Corporation, Bothell, WA	Research Associate	Medicinal Chemistry

2001 - 2003	University of California, Santa Barbara	Graduate Researcher	Chemistry
2000 - 2001	Colorado State University	Research Assistant	Chemistry
1999 - 2000	Hauser Research Inc., Boulder, CO	Research Associate	Drug Development
1998 - 1999	Albany Molecular Research, Albany NY	Research Associate	Drug Discovery

KEY SKILLS AND EXPERTISE

- Design, implementation and quantitative analysis of complex clinical and field epidemiological studies, including community-randomized trials, and studies in resource-limited settings.
- Global health policy and implementation, including national-scale health programming for malaria elimination.
- Drug discovery and drug development.

PROFESSIONAL EXPERIENCE

I. Professional experience: Public Health

(Sept. 2018) – **Assistant Professor, Epidemiology**

current Department of Biostatistics and Epidemiology, School of Public Health and Health Sciences, University of Massachusetts- Amherst

- Principle investigator for epidemiological studies of infectious disease, and vector-borne diseases, including malaria, and tick-borne diseases.

2014 – **Regional Research and Epidemiology Coordinator (Vietnam/Lao PDR)-**

(Aug. 2018) Malaria Elimination Initiative, Global Health Group, University of California, San Francisco

- In-country (2014-2016) and US-based (2016-2018) project research and epidemiology coordinator and local lead for a 4-year Bill and Melinda Gates Foundation-funded project, *Preparing for Malaria Elimination in the Greater Mekong Subregion*.
- Key responsibilities are design, field implementation/monitoring and analysis of diverse epidemiological studies to generate an evidence-based program to support the elimination of *Plasmodium falciparum* malaria in Vietnam and Lao PDR.
- Direct supervision of project staff, and all field activities.
- Co-PI for a split-plot village-randomized trial; completed August 2019.
- Other responsibilities include daily project oversight and management, progress reporting, and liaising with both in-country partners, (NMCPs, PSI, CHAI, and others) and US-based partners

- 2014
(2 months) **Team Leader-** Mid-term evaluation of the PMI/USAID Control and Prevention of Malaria (CAP-M) Project
- Comprehensive desk and field evaluation of a \$24 million USD project aimed at reducing morbidity and mortality from malaria and containment of artemisinin-resistant malaria in Cambodia, Myanmar (Burma) and Thailand.
 - Led all field work, analysis, and head writer of final report.
- 2011 – 2014 **Epidemiologist-** Center for Infectious Disease Epidemiology Research (CIDER), Saw Swee Hock School of Public Health, The National University of Singapore (Singapore)
- Key responsibilities included data analysis, project technical support, and comprehensive reporting for a range of infectious disease surveillance and research projects, including design and implementation of syndromic surveillance platforms.
- 2011-2014 **Field epidemiology associate/ Organizer, lecturer, and facilitator,** Regional Epidemic and Disease Intervention (REDI) Centre, Singapore / National University of Singapore (Singapore)
- Planning, facilitation, and lecturing for a range of technical training courses in basic GIS, biostatistics, and data analysis for health staff throughout SE Asia with support from diverse partners.
 - Technical and implementation support for regional outbreak and surveillance programs in Southeast Asia.
- 2010
(2 months) **Co-investigator** – Timor-Leste Integrated Health Assistance (Timor-Leste)
- Field investigation of patterns and barriers to the usage of long-lasting insecticide treated bednets in Timor-Leste.
 - Conceived, planned, and organized a qualitative method research study (focus groups) that examined barriers to ITN usage in rural and peri-urban areas of Timor-Leste.

II. Professional experience: Chemistry

- 2007 – 2009 **Associate Scientist I-** Gilead Sciences (Seattle, WA)
- Medicinal chemistry research into novel therapeutics for respiratory disease, including cystic fibrosis, asthma, and COPD.
 - Responsible for independent research design, execution, and characterization of a wide variety of analogues for *in vivo* and *in vitro* evaluation.
- 2004 – 2007 **Research Associate II/III-** ICOS Corporation (Bellevue, WA)
- Drug discovery research (lead development and optimization) in diverse therapeutic areas including novel antibiotics, inflammation, and oncology.
- 2001 - 2004 **Graduate Researcher-** University of California, Santa Barbara

- Research in modern organic/organometallic methodologies in Bruce H. Lipshutz' laboratories, directed towards the total synthesis of the biaryl, antimalarial natural product korupensamine A.
- 2000 – 2001 **Graduate Researcher**- Colorado State University (Ft. Collins, CO)
- Research in Robert M. Williams' laboratories directed towards the asymmetric synthesis of unnatural cyclopropane-containing amino acids.
- 1999 – 2000 **Research Associate II**- Hauser Research Inc. (Boulder, CO)
- Involved in the synthesis, purification and characterization of advanced pharmaceutical intermediates for custom synthesis clients, including derivatization of Taxol® analogues for biological evaluation.
- 1998 - 1999 **Research Associate**- Albany Molecular Research Inc. (Albany, NY)
- Involved in the combinatorial synthesis and purification of directed pharmacophore libraries.
 - Also performed the synthesis and characterization of starting materials and substrates for chemical library generation.

GRANTS

Current

Foundation for Innovative Novel Diagnostics (PI) 1/15/2020-
 Collaborative agreement 8/15/2020
 "Assessing novel serological rapid tests for *Plasmodium vivax*" \$5,500 USD

NIAID/NIH (PI) 6/10/2020-
 R21 Exploratory Research Grant 5/31/2022
 "Spatial case-control studies to target the human ecology of tick-borne infections" \$427,000 total
 \$275,000 in direct

NIGMS/NIH (co-Investigator) 6/1/2020-
 R35 Maximizing Investigator's Research Award 8/1/2021
 "Statistical methods for real-time forecasts of infectious disease: dynamic time-series and machine learning approaches" \$315,000 total
 \$187,000 in direct

The Global Fund for TB, Malaria and HIV (key personnel) 1/1/2018-
 Regional Artemisinin-Resistance Initiative-2 1/1/2021
 "Malaria Elimination Realized through Community-focused Interventions (MERCi)- Vietnam, Laos, and Cambodia" \$6.8 million total to consortium;
 (member grant writing team) \$950,000 to UCSF

Past

US Naval Health Research Center-Asia (NHRC-A) (co-PI)
 Broad Agency Announcement (BAA) 9/15/2017 -

“Zooprophylaxis aided ivermectin-based vector elimination for malaria control, Central Vietnam (ZAIVE)” (lead writer)	5/14/2019 \$125,000 total
<u>The Bill and Melinda Gates Foundation</u> (key personnel) Global Health and Malaria Program “Preparing the Greater Mekong for Malaria Elimination” (member grant writing team)	11/1/2015 - 11/1/2019 \$4.2 million total
<u>US Naval Health Research Center-Asia (NHRC-A)</u> (co-investigator) Broad Agency Announcement (BAA) “Evaluation of Spatial Repellent (SR) Products Under Semi-field Conditions in Hanoi, Vietnam” (co-writer)	1/01/2015 - 6/01/2017 \$129,000 total
<u>Communicable Disease Division; Ministry of Health, Singapore</u> (co-investigator) Infectious Diseases Competitive research grant “One Health, Zoonotic Diseases and Pandemic Planning: Creating a Bioethics Framework in Singapore” (technical input)	11/01/2014 - 12/01/2015 \$140,000 total
<u>NUS Initiative to Improve Health in Asia / Duke-NUS</u> (co-investigator) Health in Southeast Asia Call “Development of a spatial ecohealth framework to identify indicators associated with emerging infectious disease risk in Singapore” (co-writer)	05/01/2012 - 01/01/2014 \$170,000 total
<u>Sanofi-Pasteur</u> (co-investigator) Block research grant “Improving the clinical case management and strengthening surveillance of dengue in Cambodia” (co-writer)	09/01/2011 - 01/01/2013 \$250,000 total

UNIVERSITY AND PUBLIC SERVICE

Departmental Service

AY 2018-'19	Department of Epidemiology, School of Public Health and Health Sciences UMass	Member of curriculum committee
AY 2019-'20	Department of Epidemiology, School of Public Health and Health Sciences UMass	Member of graduate admissions committee
AY 2018-'19	Department of Epidemiology, School of Public Health and Health Sciences UMass	Member of graduate admissions committee
2014	Saw Swee Hock School of Public Health, National University of Singapore	Member of advising committee to solicit feedback for research employees within the School of Public Health.
AY 2013 - '14	Saw Swee Hock School of Public Health, National University of Singapore	Reviewer for MPH global health capstone projects.
AY 2011 – '14	Saw Swee Hock School of Public Health, National University of Singapore	Ad hoc interviewer/reviewer for research faculty candidates (4 reviews submitted).

TEACHING AND MENTORING

Short Courses

2015	Regional training course on malaria elimination in the Greater Mekong Subregion (SEARO and WPRO) <ul style="list-style-type: none">Chiang Mai, Thailand; funding: BMGF and WHO	Lecturer and facilitator
2014	Disease Transmission and Outbreak Investigation <ul style="list-style-type: none">Singapore; funding: Singapore Ministry of Defense	Organizer and Lecturer
2014	Asia-Pacific Malaria Elimination Network Surveillance & Response Training Program <ul style="list-style-type: none">Wuxi, PR China; funding: Asia-Pacific Malaria Elimination Network	Lecturer and facilitator
2013	Outbreak Investigation and Acute Response <ul style="list-style-type: none">Ho Chi Minh City, Vietnam; funding: Institut Pasteur; French Embassy- Regional Cooperation Department	Lecturer
2014	Disease Transmission and Outbreak Investigation <ul style="list-style-type: none">Singapore; funding: Singapore Ministry of Defense	Organizer and Lecturer
2012	Epidemiological Methods for Health Research <ul style="list-style-type: none">Ho Chi Minh City, Vietnam; funding: Institut Pasteur	Organizer, Facilitator and Lecturer
2012	HIV Cohort Data Analysis <ul style="list-style-type: none">Mandalay, Myanmar (Burma); funding: The Union Against Tuberculosis and Lung Disease	Organizer, Facilitator, Lecturer, and Program Evaluator
2011	HIV Program Monitoring and Data Analysis <ul style="list-style-type: none">Siem Reap, Cambodia; funding: FHI 360 and USAID	Organizer, Lecturer, and Program Evaluator
2011	Data Management with EpiData <ul style="list-style-type: none">Bali, Indonesia; funding: US CDC; TEPHINET- Training Programs in Epidemiology and Public Health Interventions Network	Organizer, Facilitator and Lecturer
2011	Public Health Surveillance and Introduction to GIS <ul style="list-style-type: none">Phnom Penh, Cambodia; funding: French Ministry of Foreign Affairs; Institut Pasteur	Organizer, Facilitator and Lecturer
2011	EpiData for Data Management and Basic Statistics <ul style="list-style-type: none">Vientiane, Lao PDR; funding: French Ministry of Foreign Affairs; Institut Pasteur; Institut de la Francophonie pour la Médecine Tropicale	Organizer, Facilitator and Lecturer

Academic lecturing

AY 2019 – '20 (Fall & Spring)	MICROBIO597Z: Medical Zoology-Parasitology and Epidemiology Literature review	Co-instructor (Graduate elective)
2020 (Spring)	PH390Z: Pathogens, People and Politics <ul style="list-style-type: none">School of Public Health and Health Sciences, University of Massachusetts, Amherst	Developer and Lead course instructor (Undergraduate elective)
2019 (Spring)	MICROBIO597Z: Medical Zoology-Parasitology and Epidemiology Literature review	Co-instructor (Graduate elective)
2019 (Spring)	EPI633: Communicable Disease Epidemiology <ul style="list-style-type: none">School of Public Health and Health Sciences, University of Massachusetts, Amherst	Developer and Lead course instructor (Graduate elective)
2017 (Spring)	PH492: Senior Capstone <ul style="list-style-type: none">School of Public Health and Health Sciences, University of Massachusetts, Amherst	Lead course instructor (Undergraduate required)
2013	CO5103: Quantitative Epidemiological Methods <ul style="list-style-type: none">Saw Swee Hock School of Public Health, National University of Singapore	Teaching assistant- computer lab sectionals
2013	CO5221: Introduction to Global Health <ul style="list-style-type: none">Saw Swee Hock School of Public Health, National University of Singapore	Guest lecturer: "Malaria Control for Global Health"
2012-2013	CO5201: Control of Communicable Diseases <ul style="list-style-type: none">Saw Swee Hock School of Public Health, National University of Singapore	Guest lecturer: "Malaria"
2001-2003	CHEM 6CH: Organic Chemistry Laboratory <ul style="list-style-type: none">Department of Chemistry, University of California, Santa Barbara	Teaching assistant- laboratory sections

PROFESSIONAL ACTIVITIES

Memberships

1993 - 2010	American Chemical Society
2014 - current	American Society of Tropical Medicine and Hygiene
2018 - current	Society for Epidemiological Research

Service to Professional Publications

- 2011 - current Ad hoc referee for: *Malaria Journal*, *American Journal of Epidemiology*, *Trends in Parasitology*, *Journal of Clinical Virology*, *Emerging Themes in Epidemiology*, *Parasitology*, *Health Policy and Planning*, *Scientific Reports (Nature)*
- 2014 Ad hoc invited grant reviewer for Human Frontier Science Program (Strasbourg, France).

Continuing Education Courses Attended

- 2018 Medical-Veterinary Acarology Short Course (Tick Week), Ohio State University, Columbus, Ohio USA
- 2012 Global Malaria Elimination Short Course, Karolinska Institute, Stockholm, Sweden
- 2010 Outbreak Investigation International Short Course, Singapore
